

# Stay

Lewis Watson

When I close my eyes, I hear you singing  
Singing me a song that I'll forget, I always forget  
I try to trick myself back to sleeping  
You pick me up but I let you down

It was so clear but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay, stay, stay?  
If only I could dream, we could start again  
If only I could dream, we could start again

When I close my eyes, I see you dancing  
Dancing me a song just out of reach, just out of reach  
I need you in a day when I'm not dreaming  
You pick me up, I don't wanna let you down

It was so clear but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay, stay, stay?  
If only I could dream, we could start again  
If only I could dream, we could start again

It was so clear but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay, stay?  
If only I could dream, we could start again, stay  
If only I could dream, we could start again, stay  
If only I could dream, we could start again  
If only I could dream, we could start again
