

The Lonely Spider

Lhasa de Sela

Lonely spider waiting in her web
Hoping she can catch some happiness
Then who should stumble into here but you

Got you where I want you
Got you where I want you

Lovely lady spider likes you best
Begs you to come live in her own nest
Feeds you clothes you gives her heart to you

Got you where I want you
Got you where I want you

Don't know why you put up such a fight
Make the lady spider cry all night
You never have to be alone again

Got you where I want you
Got you where I want you

Lonely spider waiting in her web
Hoping she can catch some happiness
Oh, when will happiness come by again?
