

Energy Spent

Liam Finn

Oh the view of the sea
The Deep Blue Adriatic Sea
The clouds are covering the hills in a madness
That sometimes covers over me

But I'm not broken just a little energy spent
And it's a long way from here
I'm not broken just a little energy spent
And it's a long way from here

With a towel on my hips
And the salt upon my lips
I am starting to look like a homeless
With a beard on my chin

But I'm not broken just a little energy spent
And it's a long way from here
I'm not broken just a little energy spent
And it's a long way from here

From here I cannot see my house
And here I can speak my mind
From here I cannot see my house
And here I can speak my mind

But I'm not broken just a little energy spent
And it's a long way from here
I'm not broken just a little energy spent
And it's a long way from here

From here I cannot see my house
And here I can speak my mind
From here I cannot see my house
And here I can speak my mind
