

Read My Mind

Lianne La Havas

So right, could make a baby tonight
Throw my life away, oh
I'll die another day
Feels like I've got nothing to hide
Serendipity, I noticed you notice me
Those eyes caught by surprise
If I look again, oh, what's gonna happen then?
Sweet joy when a girl meets a boy
Happened naturally, mmm, better believe

Could you possibly be any closer to me, boy?
Not a thing you can do 'cause I'm coming for you
Yes, it's time

Read my mind
Seek and you will find
Oh my, it's love, nothing more
What you waiting for?
Oh no, it's time

Oh, no, you're everywhere that I go
In my head again, oh, stuck in my head again
Full force, means you're taking a course
No need for hide-and-seek
I'll let you find me
Love and light personified
I'm so into him, oh
I hope God is listening
The pure joy when a girl meets a boy
Natural chemistry, oh, better believe

Could you possibly be any closer to me, boy?
Not a thing you can do 'cause I'm coming for you
Yes, it's time

Read my mind
Seek and you will find
Oh my, it's love, nothing more
What you waiting for?
I'm yours, oh, boy
Read my mind
Seek and you will find
Oh my, it's love, nothing more
What you waiting for?
(What you waiting, what you waiting for?)
(What you waiting, what you waiting for?)

Could you possibly be any closer to me, boy?
Not a thing you can do 'cause I'm coming for you, boy

(What you waiting, what you waiting)
(What you waiting, what you waiting for?)
(What you waiting, what you waiting for?)
(What you waiting, what you waiting for?)

Could you possibly be any closer to me, boy?
Not a thing you can do, I'm coming for you, boy
