

## Same as Me

Lianne La Havas

Here's a song,  
It's made for you, long over due  
So here goes  
Home truths that I have to disclose

Remove the mask you hide your handsome face  
behind, take heed,  
It's advice you might need  
I know a truth you're hiding underneath  
You are just the same as me

Take off your coat of fears  
If I know you, for your coldyier...  
Wipe away one wet your brow  
It's over now  
they over

I know a truth you're hiding underneath  
You are just the same as me  
You are just the same as me  
You are just the same as me  
You are just the same as me
