

Gotta Be Tonight

Lifehouse

Gotta keep your head up and move along move along
Gotta keep your head calm and carry on carry on

Gotta keep your head up and move along move along
Gotta keep your head calm and carry on carry on

Gotta keep your brights on and cruise along cruise along
Gotta keep your head up and move along move along

We're Driving all night long, chasing miles and breaking down
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonight

Gotta keep you head up and stay awake stay awake
Gotta keep you head up and stay awake stay awake
This road is rough gonna be heartache heartache
Gotta keep you head up and stay awake stay awake

We're Driving all night long, chasing miles and breaking down
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonight

Gotta keep your head up and move along move along
Gotta keep your head calm and carry on carry on

Gotta keep your brights on and cruise along cruise along
Gotta keep your head up and move along move along

We're Driving all night long, chasing miles and breaking down
We gotta take a chance while we're still young
But it's gotta be tonight
It's gotta be tonight

It's gotta be tonight
It's gotta be tonight
