

# Only You're The One

Lifehouse

This is a night  
Like none before  
I knew it when you opened up the door  
With a look to paint the sky  
Let me read between the lines in your eyes  
Tonight

It's the event  
We dreamed about  
Where we whispered all the words they're shouting out  
And now it's one two three four  
Tonight

I'm with you when the lights go down  
Take my hand I'm all yours now  
I know you're the only one  
That would never lead me on  
I'm with you when the lights go down  
Cuz you're the one and  
Only you're the one and...

The only one  
Who keeps it here  
In each moment as the voices disappear  
The audience stands  
The band begins  
And it's one two three four  
Tonight

I'm with you when the lights go down  
Take my hand I'm all yours now  
I know you're the only one  
That would never lead me on  
I'm with you when the lights go down  
Take my hand I'm all yours now  
Cuz you're the one and...

Only you're the one  
Only you're the one

I'm with you when the lights go down  
Take my hand I'm all yours now  
I know you're the only one  
That would never lead me on  
I'm with you when the lights go down  
Take my hand I'm all yours now  
You're the one and  
Only you're the one and...

You're the one and...  
Only you're the one and...
