

Somewhere In Between

I can't be losing sleep over this, no I can't
And now I cannot stop pacing.
Give me a few hours, I'll have this all sorted out
If my mind would just stop racing

Cause I cannot stand still;
I can't be this unsturdy;

Asus2

And this cannot be happening.

This is over my head but underneath my feet
Cause by tomorrow morning I'll have this thing beat
And everything will be back to the way that it was.
I wish it was just that easy

Asus2 C#min7 Bsus4

Cause I'm waiting for tonight.
Then waiting for tomorrow.
And I'm somewhere in between

Asus2

What is real, and just a dream.
