

Hate Me Love Me

Lifer

Clenching my teeth and biting my tongue
It feels like the damage has been done
What did I do to you?

Did you like what you saw?
'Cause you did it again
The blade in your mouth
And the blood on your hands
You're cutting me down
What did I do to you?

I don't know why you hate me
What did I ever do to deserve
The things that you say?

I'm trying to bleed and slowly be gone
I'm losing the battle you have won
What did I do to you?

Did you like what you saw?
'Cause you did it again
The blade in your mouth
And the blood on your hands
You're cutting me down
What did I do to you?

I don't know why you hate me
What did I ever do to deserve
The things that you say?
I don't care if you love me
No, I don't care, I don't care
I don't care if you love anyway

Put me down and berate me
Amputate me
Do you feel better now?

I don't know why you hate me
What did I ever do to deserve
The things that you say?
I don't care if you, if you love me
No, I don't care, I don't care if you love anyway
