

Lightning in a Bottle

Lifer

Something deep inside
A spark to reignite the unforgettable fire
Bring it back to life
Don't let it fade away
There's no time to decide when the time is now

With the lightning in a bottle
We will see again
Catch the lightning in a bottle
We'll shine until the end

Emotions amplified
Turn it up to ten
And let the flames grow higher
Bring it back to life
Don't let it fade away
There's no time to decide when the time is now

With the lightning in a bottle
We will see again
Catch the lightning in a bottle
We'll shine until the end

Planets and the stars align
What it means to be alive
If all the others don't survive
Will we?

With the lightning in a bottle
We will see again
Catch the lightning in a bottle
We'll shine until the end
