

Money

Lifetime

I can truly say I don't give
A f*ck about your money
Because it means so much to you
(And all your money)
Why does it mean so much to you?
You speak the land of greed
I'm talking a world of need
Money has nothing to do
With the value of life
But that's just common sense
You call me up and talk
About money
I don't want to hear anymore
About money

Look what people do
Trying to get their money
To buy their fantasies based on
The book or the movie
Fortified cares
Modified principles
Convenience is the name of the
Game
Self-indulgence is the rule (selfish motherf*cker)
There are no winners
We all lose
Thanks for nothing

You put yourself up for sale
You're all sold out
