

# Hole In My Heart

## Like A Storm

I'm so sick of the heartache  
Pulling me back again  
All the moments have faded  
Won't let me go again

I still believe  
You'll haunt me until the end  
And I don't believe  
I can give you away, away

There is a sickness!  
So deep in my heart I can barely breathe  
God as my witness!  
I won't surrender to your disease

I'm so sick of the waiting  
Pulling me back again  
I still believe in  
All that will never be  
You'll be the death of me!

I see what you are, see what you are  
You're just a hole in my heart  
I carry the scar, see what you are  
Why can't I tear us apart?

Wake up!  
Into the flames, I've been sleepwalking  
Face it!  
Without me you're left with a void within

I'm so sick of the waiting  
Pulling me back again  
And I still believe in  
All that will never be  
You'll be the death of me!

I see what you are, see what you are  
You're just a hole in my heart  
I carry the scar, see what you are  
Why can't I tear us apart?  
I see what you are, see what you are  
You're just a hole in my heart  
I carry the scar, see what you are  
Can I go back to the start?

(I still believe in  
I can't give you away)

I see what you are, see what you are  
You're just a hole in my heart  
I carry the scar, see what you are  
Why can't I tear us apart?  
I see what you are, see what you are  
You're just a hole in my heart  
I carry the scar, see what you are  
Can I go back to the start?

There is a sickness!  
God as my witness!
