

Birth to Life

Lil B

Birth

Birth is so amazing

Thank the woman for her patience

9 months and anxious, I'm still waiting

When the doctor say your name and last name

Birth certificate, know when you created a soul that relies on your positive outlook

Has no knowledge on life tips

Could have been lifeless

If mom didn't push through the night shift

Natural birth with shots to speed it up

[?] c scan are all words that we can

Make a life like a tree and

Watch it grow for the land

Love turned to plan

Some didn't plan but aware what can

Happened to a man who moves with the land

The woman takes a form not normal to the eye

But in genetics is normal as I

Stomach pokes out, wonder what's inside

Lungs and cells building, no jail

Red cells and white cells help build its immune system

Gets bigger every day, what you doing to it

Eating the right foods, and drinking a lot of water

Can always help the body performance a little harder

Bless all the fathers that chose to be a father

It's an honor

Just breathe

Just breathe

Birth

It's amazing

Midnight comes, you tossing and turning

Look what you created: someone looking back at you

For the first time, this is not a club scene

Look at its arms resemble parts of your form

You staying strong, even though days can be long

But you birthed a lifeform that can make the night sing

Like a painted picture, this is your life's dream

Something you never thought, lightning strikes

The human is a positive movement

Crying out a joy like graduation

This is life's accomplishment

Celebrate birth

Just breathe

Just breathe

This is amazing today

To celebrate birth, celebrate this new life that has been created

Just breathe

Breathe for all the new life

Breathe for all the new babies being born

Just breathe

Celebrate life

Just breathe

Celebrate

Just breathe
Celebrate life
Celebrate everything
The new life is born
