

# Keep Saggin

Lil B

Keep talkin the past but we livin in the future  
We the most advanced, thank God for computers  
But that comment might not be fair  
The big bang make everything clear  
God hated all with my niggas in here  
But understand that shit, it's what I wear  
You act like -whatever but truth is there  
Family at war and troops is dead  
Feel me? why I'm saggin I won't answer man  
This is just my quilt  
Look at the wrong way you might get killed  
The earth - no love - this is how I feel  
Everybody tryna say belong to this  
You belong to that, we in the group with this  
We gon' call you that  
And we gon' act like this  
You gon' act like this, you don't understand  
Take time to find, watch everyday for the dotted lines  
This shit don't seem right  
Then it really might be what it act like  
The door started open when my cats got right  
This shit the open doors for my people last night  
When I say people - I'm talking about you in the game man  
We got to stick like glue  
Back to back subjects, niggas in paris  
Niggas in jail, niggas in sweden  
Niggas is terrorist, niggas had history with your grandparents  
Man, everybody know - it's the time that we cherish  
Live your own life and don't worry bout acceptance  
Please talk to me if you really hear the message  
Ain't nothin' wrong with the person asking questions  
If I know it, then I'm a teach a lesson  
I won't go to jail, and I won't pay your profession  
I learn my laws so my family stay protected  
I'm a spread love when I'm passing the sector  
You already know so you won't ask me questions  
I'm the rawest out man ain't no questions  
One man band with the chopper on the dresser  
Move lowkey make them suckers under pressure  
Pressure bust the price with the shit that I tote  
Make niggas think twice about stretchers  
And I'm not with the rape or the hood  
Going to the hood, and shit on the hood  
Old refineries, the water no good  
It's a lot of love but no money in the hood  
No focus man, when they come down too  
Rather stay in your house, than go walk around  
How you really love me when you don't know?  
How you gon' live life if we don't grow  
2013 we gotta have more peace, in the world  
Just understand me  
Everybody speak, you ain't gotta correct  
Cause you don't understand just decypher the message  
You will get way farther than the person who is guessin'  
Really love people, that's my first suggestion  
Really take a look at yourself in the mirror  
Can it get any clearer? the first impression

People keep sayin' that I never make it  
I say I'm alive so I already made it  
Be happy what you got, cause it can be taken  
By earth, or home invasion  
I don't support crime  
One crime one beat when the heart's in the sink  
You feel me? only self defense  
But, people use their words so usually  
I swear man, I love life, it's like a movie  
Wear my saggy pants  
I'm a keep saggin, I'm a keep saggin  
Fuck that it's fashion
