

# My Business

Lil B

We are kings, welcome to this Based ceremony  
I come from the ocean  
I see a lot of people mad about how they going  
I told 'em "Fam stay up, you know how brothers hold it"  
Swear to god I'm thinking things that I couldn't go in  
Details, Sprewell, choke your coach type of controversy  
And they ain't ready for that media  
Thought they love you, Tiger Woods they ate him up  
If he did something else, they'd probably beat him up  
They'd try to, I'm blind to anything beside anything inside  
Put my pride aside, this time I been in secret  
No oblige to my name  
Tarnish the flame  
Can't see what you can't obtain  
So why don't you be an A and start the alphabet?  
I'm starting the game, this my business  
Stay out of it

My personal business is my secret wishes  
Once you're into that, you understand you're not forgiven  
Keep your space, I'll tell you what I want to tell you  
I'm not familiar  
I lost contact with many people  
Still forget me when they see me  
Like it's my commitment to drive a friendship  
I'd rather drive a car or tighten up my pen-ship  
'Cause with the internet people slay your image  
Recording conversations, can't trust your party  
Cameras the size of the glasses  
Upload to the computer  
You stole your life with some pixels  
And some viewership, this is my business  
Stay out of it

Talking to a girl, she speaks about her past like I wanna think before me  
That upsets me  
She knows a few of my partners, that intercepts to me  
A little close for comfort, I know she talking  
Told me things that he said something  
Can't believe her but then I do  
A lot of guys pillow talk  
Should've had a gossip blog with Perez Hilton  
Disguise in baggy clothes and tight pants, I seen through this  
I chose to keep my opinion and my face  
My expressions tell I'm kind of Based  
Matter of fact, I reside in space  
My honor's in place  
Keep my business to myself

Disgust at how the media portrays the average  
What's an average when we're all one?  
I know my mathematics  
Couldn't ask me about my day  
Your brain is clouded, thinking many thoughts about another  
I'm starting to feel you portray a coward  
Paint the image of a flower  
What I see symbolizes my belief in one's worth

Don't nobody understand  
You been deployed for the longest  
Serving honors for the long hours  
Trading clubs and the women for the spoken power  
Release my thoughts like an open shower  
The steam represents the urgency or emergency  
My business is strict, delicate to my emotions  
I understand now  
Keep my business, stay out of it

Business as usual  
Jay-Z, Mary J, classic song, very personal  
I felt okay to say a few things  
Mos Def, I understand most definitely  
My speech  
[?] committee on the 4th degree  
Forcing me to be alone  
Like Britney Spears, cut my hair and go nuts  
About the way I live  
Put it in the news that I ain't fit to raise my kids  
Crazy as they interfere with the natural process  
Don't understand the free country when we paying taxes  
Wanna get me because I'm speaking active  
Say too much, Mafia come  
With a big distraction  
Nothing less than court time  
That times by the lawyer fees  
That times by the humiliation, wonder if I keep my business to myself  
Patiently waiting for the respect  
Keep my business to myself
