

# New World

Lil B

This is great  
Finally I'm going to the place where I wanna be in my life  
Around all the people that I wanna be, this is great  
This is a new world, this is based world  
And I wanna say thank ya'll for coming around and just hanging out, you know  
Because this is just beautiful man  
We can appreciate being alive man, I'm happy

A new world is something we all want for our children  
All the pride and motherfucking glory  
All the peace and honor, based world understands that  
We need love to survive  
I'm not like other guys, keep clones and hypnotized  
Traumatized by the life  
Gotta teach em that it ain't a dream  
I know the color of a flower  
The same color as my soul, it's so lovely  
Here in the world, watch us breathe turn daytime  
You feel me?  
Let em hate the new world  
Because they fear happiness  
Don't go corrupt to the love for bucks  
One day man it won't be enough  
So many questions to life  
Would I answer it right?  
The universe is bright  
You keep checking all your lights  
I'm gonna kiss the earth now  
We all got a purpose  
I'm a larva in the cocoon shirtless, waiting to form and transform  
Far away, the sky grey  
But you gotta make your day sunny, CB said that that's new money  
No money could pay the world what you do for me  
They say if the ruler got a pure heart  
You'll never be in the dark  
Keep the light when you fall  
Don't worry bout me, I'll be back, two years and counting  
Keep climbing these vines and mountains  
Looking for a better place, that forever space, that new world  
I would never instigate a hate or learn fake  
Cause you're born great, you feel me?  
You would see if you don't take  
That new world, add it to this special  
Let the next person go right away, you special  
Don't forget I said that  
I'm like a Rubik's Cube  
Lil B locked in based world, the new world  
Stay trappin based world, mine for the time  
Can't lie, I'm ready to live, I'm ready to die  
I gotta draw my eyes, I gotta live my life

This new world  
It's a new world  
This is a new world  
Based world, based world, based world  
Based world, based world  
I said this a new world

This a new world  
Lil B, yea, this a new world  
Glassface, this is based world  
Stay positive  
It's a new world  
It's a new world  
It's a new world
