

# The Real is Back

Lil B

This Lil B for real, man  
This my first time at the game, for real  
BasedGod on the beats, it's 100% me  
Put my life in this rap

I came from a hole in the wall  
Niggas still got dope in the wall  
Got weight on the scale, niggas still push white in your life  
Wrong move and I'm taken your life  
I ain't playin' with 12  
My throat hurt and I don't talk to the law  
Fake nigga I ain't talkin' to y'all  
This is real when I rap  
Fifty-thousand just to take a nap  
Move out because the real is back  
Bitch deal with that  
You niggas actin' fake as hell  
On the cover of the XXL, with Kendrick Lamar  
And I went right back to the hood  
Cookin' dope like a real nigga should  
I'm really that good  
I'm unsigned, I'm the rawest out  
Niggas take it and I'm barkin' 'em out  
You bitches is fake  
This is real nigga  
R-I-P, Emmett Till, nigga (West side)  
On the real

I never left my city or home  
Grew up, but I never moved on  
Now my money is low  
But I still got a few homes  
Nigga play me, I'm movin' alone  
But I'm standin' strong  
I'm standing for my niggas that woke up  
I bring the Terror Squad like Remy or Coca  
Soulja Boy, you actin' fake as hell!

Only thing that he made was bail  
How you make me?  
Bitch, stay in your lane, for real  
You hear me on the beat, this not Wayne or Pharrell  
I got my own style, nigga you lame as hell  
Hatin' on the player 'cause that fake shit sell  
All on interviews, snitchin' and tellin'  
How the f\*ck you got money and you niggas be jealous?  
I know I'm the man for real  
Because I was a nerd before Chad and Pharrell, nigga

Lil B in the building, I know the whole world been waitin' for this  
I got y'all

What you hearin' through your speakers?  
You compare this to Jesus  
Things might get wild  
2017, it's a whole new round  
Really had to sit down produce this sound

Nobody was around when I was struggling, how?  
2018, now I'm so profound  
Put on your life vest because you might go down  
Really watch your bitches, man, I'm tellin' you now  
The devil got an ass and a smile, feel me?  
I want money, I don't want no child  
You could call me selfish and I'mma ask you how  
When these- ain't quality  
Nah, I don't want that- to be a part of me  
I'm lookin' for the best woman  
With a mind and a spirit, I don't need the p\*ssy

BasedGod
