Yeah  
Now from the introduction bad ass he had you blushin'  
My first discussion was strictly if all this body touchin'  
Kissin' and huggin' she fill me her head in the pillow  
I kiss her tattoo on her back and stroke her from the back  
And I put it on her from the wall to the bed  
Fine red she ain't scared she gon' hit me with that head (yes, sir)  
She comin', I'm comin' we both close our eyes  
She call me rollercoaster she love to take a ride  
Say she ain't met nobody yet dat can last longer  
Sometimes I need ex just to last longer  
And I think for her and all of my mind stay on her  
Put her body in a coma
