

# Come And Give Me Some

Lil Cuete

I'ma call you baby  
You can be lady  
Girl you're so amazing  
Damn your body's killing em  
Baby girl let's ride out  
I'm talking bout right now  
When we can go hide out  
Baby come and give me some

Come and give me some  
Girl I want you bad  
Gonna give it to ya  
Like you've never had  
And I know what you're thinking  
Will I go all out?  
Baby girl best believe it  
Yeah imma put it down  
Got me wishing I was in it  
Won't stop till you're finished  
Another late visit  
I got you in my naughty list  
I gotta get you all alone with me  
Like in another zone with me  
And I'd like a presidential suite  
Getting crazy on the balcony  
Now let me get you wet between the sheets  
And get you nice and wet  
Baby girl you know I feel so sweet  
When you're kissing up on my neck  
And you're a 10 for sure  
You got me wanting more  
The bed was cool  
But let's take it down to the floor

I'ma call you baby  
You can be lady  
Girl you're so amazing  
Damn your body's killing em  
Baby girl let's ride out  
I'm talking bout right now  
When we can go hide out  
Baby come and give me some  
Come give me some

Let's bring the candles out  
Bring the candles out and light em up  
Let me rub your body down with lotion  
Got you body waving like the ocean  
I'm so into you  
Let me get you back on the bed  
Let me get you from the front  
Nah let me get you from the back instead  
Give it how you like it  
I guarantee you'll like it  
Baby girl now ride it  
Getting me excited  
Now I gotta go down on you  
After all you went down on me  
And baby doll you're so fine  
I wanna try everything  
Like seeing your sexy lips  
Sucking on my finger tips  
Every time I try to slow it down  
Baby girl you know I can't resist  
And you're a 10 for sure  
You got me wanting more  
The bed was cool  
But let's take it down to the floor

I'ma call you baby

Daddy wants some but the windows up  
Gotta roll em down  
Let em know what's up  
I don't really care if anybody around  
Let em hear the sound  
Well it's going down  
Daddy got me on his little freaky list  
Love a nice girl with a naughty twist  
Get a sugar high on my candy kids  
Wanna put me down and hold my wrist?  
You should live your fantasy  
You can live it out with me  
You should bring like two or three

Other girls don't bother me  
I know what I want  
Know what I got  
Know I got enough to give you some  
Know that I'm high  
Baby don't front  
Take it up a notch and give me some

I'ma call you baby  
You can be lady  
Girl you're so amazing  
Damn your body's killing em  
Baby girl let's ride out  
I'm talking bout right now  
When we can go hide out  
Baby come and give me some  
Come give me some

Come give me some  
Come give me some  
Come give me some  
Come give me some  
Come give me some  
Baby come and give me some

Come give me some  
Come give me some  
Come give me some
