

# Crush

Lil Cuete

Baby I can show you passion  
Romance & satisfaction  
Gotta let you know  
I've had this crush  
Crush crush on you  
Deep within infatuation  
At all the years  
You got me waitin  
For the longest time  
I've had this crush  
Crush crush on you

It was the first time  
I saw you alone  
Girl you had me stuck in the zone  
When we first met  
Then I seen you at the mall  
With your friends  
You dropped like 2 hundred & ten  
On some heels you liked  
I was thinking of approaching you right  
But I'm thinking  
"Am I even your type?"  
So I'll just start with your name  
You said I'm only out playing games  
And I said that it was time for a change  
And you just laughed  
But it seems like you ain't laughing at all  
I'd be glad if I can give you a call  
Then we both blushed  
But really girl there ain't no rush  
We could take our time  
Discuss the future for us  
You need to leave your past  
In the dust, trust  
I just wanna chill  
I'm thinking me and you  
Can keep it real  
I'm even thinking  
I can give you a call  
And we can pick it up  
Where we left off  
I'll call you tomorrow

Baby I can show you passion  
Romance & satisfaction  
Gotta let you know  
I've had this crush  
Crush crush on you  
Deep within infatuation  
At all the years  
You got me waitin  
For the longest time  
I've had this crush  
Crush crush on you

I've imagined you calling

Telling me that you miss me  
Wanted me to come over  
And keep you busy  
Imagine that  
I close my eyes  
And I see you rise  
When you in my mind  
It's like I'm hypnotized  
So just tell me  
How to make it come true  
See I really wanna make it with you  
Let's start something new  
You could be right here by my side  
Me & you alone  
Taking walks outside  
But I know it's hard  
To give me your trust  
You should think about the two of us  
I'm serious  
You're feeling me  
And you know I want it too  
Let's start a life brand new  
Just me & you
