Lil Rob

Every time I see you  
I just wanna meet you  
Say hello how you doing?  
What are you doing tonight?  
We should hook up tonight  
Have some fun tonight  
Is that alright  
I love your smile  
You smile so bright  
I'll compliment you all night  
That's no problem  
If you got flaws I can't spot 'em  
You ain't got 'em  
From top to bottom baby you got it  
And I want it  
Classy ???  
One of the finest girls I've ever seen  
You and me would be a good thing  
You can depend on me  
Ven aqui take a chance on me  
I guarantee I'll do whatever it takes  
To make you feel happy  
Just treat me right  
And I'll be Right  
The only Thing you'll need tonight  
And every night I'll tuck you in  
To make sure you're sleeping tight  
Blow out the candle lights  
and kiss you goodnight

But I want to  
Do you want me? cause I want you

And I'll do what I got to  
Everytime I dream it's about you

You're so sophisticated  
And I hate it  
Gots me intimidated  
I've got things to say  
And I can't say 'em  
Rather make this slow jam and play it  
Dedicate it to you by the man who made it  
Let me be your favorite thing  
Head of your delivil things  
You can tell me how you feel  
Baby I'm for real believe me  
I know what you mean  
My love is king  
Let me crown you with my heart  
I think were wasting time and I think we should start  
Well it's getting dark  
Better let you go where do you live  
And can I get you home  
Do you have a phone I can reach you at?  
A favorite place where I can meet you at?  
Get together and have a drink or two  
And let you know just how much I think of you
