

Thinking Twice

Lil Rob

Things that just knock me down but now I got the strength
And not from just liftin' weights
From having way to much food upon my plate
And going through this bull shit I thought I couldn't escape
Thinkin' to myself how much more can I take
Before I take this 48' and blow out my brains
So I no longer feel the pain
Or maybe you'll do shit and I'll inject somethin' in my
veins
Damn it's kinda crazy right?
The things we think about
Comming from this crazy life
I went through things, and I heard
But I bounced back and got back to work
Now every time I fall down imma just get up
Imma do it real big, imma do it tough
Cause I got a second chance to do it all again, all again
When ever I fell, imma just brush shit off
Get some fresh air
It ain't really nothin' lost
Cause I got a chance to do it all again, alll again
I still got quite the journey
Everything I've learned
A lot of ups and downs. And just as many turns
But I like being on this earth
So imma live my life and what it's worth
Some thing you just gotta brush off and get the bad people
out your life and tell em fuck off.
And not to come back cause we don't need that
We're on a different path and people just don't see that
It's beyond the comprehension I'm guessin'
Till that day comes and they learn their lesson
I been through things and I heard. But I bounced back and
got back to work
Now every time I fall down imma just get up
Imma do it real big imma do it real tough
Cause I got a second chance to do it all again, all again
Whenever I fell imma just brush shit off
Get some fresh air It ain't nothin' lost
Cause I got a second chance to do it all again all again
Sometimes things, aren't always what they seem
You needa keep on chasing your dreams
You never know what tomorrow may bring
But I know I'm not a quitter and I'm far from a beginner
I'm not a loser so I strive to be a winner
Do what it takes to get through where I get to
You can try to knock me down but I won't let you
Do what it takes to get through where I get to
Imma hold my ground and this I bet you
I been through things and I heard
But I bounced back and got back to work
Now every time I fall down imma get right up
Imma do it real big imma do it real tough
Cause I got a second chance to do it all again, all again
Whenever I fell Imma just brush shit off
Get some fresh air It ain't really nothin' lost
Cause I got a second chance to do it all again, all again

Every time I fall down imma just get up Imma do it real big
imma do it real tough
Cause I got a second chance to do it all again all again
Whenever I fell Imma just brush shit off
Get some fresh air It ain't really nothin' lost
Cause I got a second chance to do it all again all again
