

# Ball Baby Ball

Lil Wyte

Other rappers lyin, I'm everything they try to be  
Everybody love me, I feel like Duck Dynasty  
Getting so much money baby, I should grow a beard  
I don't know about ya'll but we get money over here

On a back road, ride  
Got a open gear in the concert, swerve  
Smoking on some kill  
I don't know about ya'll but this is how we do  
So forgive me if I'm cool cause this ain't nothing new

How you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball  
Hey what you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball

Okay I grind every day, get high every night  
Ballin out of control, my money take flight  
Through the air in the strip club when I'm feelin kinda fucked up  
OG white kush in my button, purple in my double cup  
And this ain't nothing new  
Getting gwap since '03 and I'm still the mane  
Big money off in my pockets, never leaving that fast lane  
That fast life - that's all I know  
Get the dough, rock the show then get hoes  
No rubber on, I'm raw as well  
Got a sick come back, her bitch full  
So what ya doin? What it is?  
Yup, you do damn right that's how we live  
Get the money up up of the show  
Show up, show out and then we split  
We hold it down, pretend to keep  
Til struggling young buck I'm free  
We ball baby, we ball baby  
It's totem pole and WYTE

How you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball  
Hey what you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball

Big rims on the Chevy, I'm always ridin heavy  
Got a few pounds in the trunk and I'm headed to the levy  
Got a hoe that's stupid thick and her mama's my biggest fan  
All I tell er is don't tell her daughter I'm the fuckin man  
But the bitch already knows it cause all I do is ball  
By a bagel, 100 and 50 pounds, still standing tall  
And I'm towering the competition, looking over it all  
Get the money, hit the gas and hope he engine don't stall yea

Pull up to the red light, bitches hear my motor runnin  
Lot of dudes is hatin on me but all of the hoes will love me  
50 20's - that's a stack  
50 hunned - 5 racks  
Funny how I'm good at that but I could never pass math  
As far as algebra, I never did bail  
But I was cold with a set of digital scale  
Sell water to a whale, a fire in hell  
Walkin in the highest school, as high as a paracell, talk

How you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball  
Hey what you doin? Aye what it is?  
This ain't nothing new, this is how we live  
And all we know is ball baby ball baby ball  
All we know is ball baby ball baby ball
