

# Come A Little Closer

Lila McCann

You look like an angel  
I wanna touch you, come a little closer  
Well there's not much and that we can do  
Woah unless you come a little closer, yeah

If you can't see the love in my eyes  
If you can't hear my heart beatin' fast  
Then maybe you should come a little closer, yeah  
If you can't feel the electricity, flyin' between you and me  
Then maybe you should come a little closer  
One foot in front of the other, I come a little closer

Right now one inch between us  
Is one too many, I come a little closer, yeah  
Don't resist it, too much distance  
Are you listening? You come a little closer, yeah

If you can't see the love in my eyes  
If you can't hear my heart beatin' fast  
Then maybe you should come a little closer, yeah  
If you can't feel the electricity, flyin' between you and me  
Then maybe you should come a little closer, yeah

One foot in front of the other, you come a little closer  
Let you're heart lead you, I need you  
Right here right now, don't slow down  
Keep comin' that's it, come on, come a little closer

If you can't see the love in my eyes  
If you can't hear my heart beatin' fast  
If you can't hear then you should come a little closer  
If you can't see the love in my eyes  
If you can't hear my heart beatin' fast  
If you can't hear then you should come a little closer

If you can't see the love in my eyes  
If you can't hear my heart beatin' fast
