

## Guard Down

Lilly Wood & The Prick

I thought I was the smartest  
The sharpest, a thumb, all I thought I was  
And here you were swinging  
From left to right and right to left, here you were

Never let your guard down  
Beware of them all  
Never let your guard down  
Beware of them all

I forgave you then  
I'll forgive you again  
Take the pain away  
Make you wanna stay  
I forgave you then  
I'll forgive you again  
Take the pain away  
Make you wanna stay

How could you stay alone and afraid?  
We're born and die alone, alone and afraid  
This has no end, there's war amongst ourselves  
This is no way to lead a life and I can't escape

Never let your guard down  
Beware of them all  
Never let your guard down  
Beware of them all  
Never let your guard down  
Beware of them all  
Never let your guard down  
Beware of them all

I forgave you then  
I'll forgive you again  
Take the pain away  
Make you wanna stay  
I forgave you then  
I'll forgive you again  
Take the pain away  
Make you wanna stay

I forgave you then  
I'll forgive you again  
Take the pain away  
Make you wanna stay
