

Lonely Life

Lilly Wood & The Prick

Passin' round the bottle
It's all you've got
Tryna get out of your old thoughts
You're all that you've got
Starin' at the bottom
Puttin' on the show
We were young too many moons ago
And all is fair in love and war

It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life

A broken heart is no joke
Nobody's laughin' at all
And it is clear that you are now on your own
You're all that you've got
Gazin' at the summit
To never get there at all
And never feel a single thing anymore
And never shed a tear anymore

It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life
It's a lonely life we live
A lonely life
