

The Real Deal

Lilly Wood & The Prick

Sure, I make mistakes, but haven't you ever made one?
My hair fall outta place most of the time

But I met this one guy, his hair is worse than mine
I met this one guy, more depressed than I

Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal
Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal

Marko said I'd never be his Polo
Marko implied I was crazy and I lost it

This really never was about hair, and I know it
No, this really never was about hair, and I know it, God knows,
I know

Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal
Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal

Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal
Baby, you make it feel like the real deal
Let's never brush our hair and call it a deal
