

## Tout doux

Lilly Wood & The Prick

You want to break free  
From these chains  
It's no secret  
Right and wrong  
What does it ever mean?  
I think the joke is on me  
Think I'm about to disappear  
Behind this fog  
I can't breathe  
Said wait a little  
Give me more  
Bite and sting  
Bite and sting

Tear me to pieces  
It's what I like you to do  
Rip my skin to shreds  
It's what I want you to do  
[x2]

Tear me to pieces  
It's what I like you to do  
Rip my skin to shreds  
It's what I want you to do  
[x2]

You want to bite me  
Until I bleed  
It's no secret  
Give or take  
What do I ever get out  
Of this game  
Think I'm about  
To suffocate  
I can't breathe  
In this steam  
Said wait a little  
Give me more  
Give me more  
Give me more

Tear me to pieces  
It's what I like you to do  
Rip my skin to shreds  
It's what I want you to do  
[x2]
