

You Beast!

Lilly Wood & The Prick

I've been stuck in a hole with no light
What's it gonna take to get me out?
What's it gonna take to set me free?
Baby, you are keeping my hands tied
Now there's simply nowhere to hide
I can't keep pretending I am fine with your lies

I know I'm your favorite toy
I know I'm your favorite toy

Boy you're keeping me in the dark with your secrets
Boy why would you do this to my troubled mind?
And now what's left for me to do with this love of mine?
You throw it out like trash in my face
You beast, you beast!

Baby I have been begging for your attention
But all I ever get is the rough treatment
You're blaming me and there's no end to this
Baby you are driving me mad with rage

I know I'm your favorite toy
Toy, toy, toy, toy...

Boy you're keeping me in the dark with your secrets
Boy why would you do this to my troubled mind?
And now what's left for me to do with this love of mine?
You throw it out like trash in my face
You beast, you beast!

Boy you're keeping me in the dark with your secrets
Boy why would you do this to my troubled mind?
And now what's left for me to do with this love of mine?
You throw it out like trash in my face
You beast, you beast!
Beast, you beast!
Beast, you beast, you beast!
