You played more than a feature
Back then when I was, pleased to meet you
You were on my team
You were a bobber and a weever
You're just a pagan now, non believer

You're all about yourself
No one else
Who the fuck are you though?
I should have never ever, ever let you too close
If the truth be told
I can't wait to see you go
Can't wait to see you break, break, break
Breaking your back
Cos all you do is take, take, take, take
Never give back

Big deal, I'm blessed
Keep talking I'm unimpressed
You're way too out of your depths
My time will not be invested
You've changed
You used to be my friend
But I don't know you no
Went too far can't undo
The things you've done, they put me through, never

You're all about yourself
No one else
Who the fuck are you though?
I should have never ever, ever let you too close
If the truth be told
I can't wait to see you go
Can't wait to see you break, break, break
Breaking your back
Cos all you do is take, take, take, take
Never give back

Member dem times when you deh pon my case

Straight chase, me carry pepper-spray mace
