

Another

Lily Kershaw

Your lover's gonna leave you
In the middle of the night
Chasing other midnight dreams
Don't you know you got no dark
In this fight

So you lose your lover
You'll take another
Oh you're hurting now
Leave when the ache turns to ouch

Your lover's gonna leave you
Your lover's gonna leave you now
Your lover's gonna leave you
Your lover's gonna leave you now

Your lover shouldn't need you
Darling don't you know by now
Let them be here one day
And the next day just let
Them fade out

So you lose your lover
You'll take another
Oh you're hurting now
Leave when the ache turns to ouch

Your lover's gonna leave you
Your lover's gonna leave you now
Your lover's gonna leave you
Your lover's gonna leave you now

Choose to use me
Choose to use me

Your lover's gonna leave you
Your lover's gonna leave you now
Your lover's gonna leave you
Your lover's gonna leave you now
