

Other Way Round

Lime Cordiale

They say it goes up
So it must come down
And I'm still hoping, it's the other way 'round
I'm much better socially
But you're waiting til' I'm down on my knees

It's not so bad
But it's not that good
In the grand scheme it's so unused
Just don't forget it or play it
Follow the leader
With your big head friends

I'll stare
I'm getting good at watching anyway
I'll sit and stare
I wanna be just like you anywhere

They say it goes down
If you want it too much
Trying to be yourself when it's out of touch
Told you to tell me socially please
With someone drowning
Oh watch with ease

I'll stare
I'm getting good at watching anyway
I'll sit and stare
I wanna be just like you anywhere

I'll sit and stare
I'm getting good at watching anyway
I'll sit and stare
Stare

I'll sit and stare
I wanna be just like you everywhere
I'll sit and stare
Stare

They say it goes up
So it must come down
And I'm still hoping, it's the other way 'round
Yeah
Yeah

I'll stare
I'm getting good at watching (watching)
I'll sit and stare
I wanna be just like you

You know I'll stare (yeah)
I'm getting good at watching anyway
I'll sit and stare (yeah)
I wanna be just like you everywhere
