

Screw Loose

Lime Cordiale

Get a rise from anybody who would care
You hate it, you love it, you'd fake your fucking death
Running out of spansks when you finally get caught
Turn it into a little argument that's not what you've been taught

You don't do what your mama ever says
You never stay inside and refuse to go to bed
Climbing out the window of your bedroom, see you later
To the people of the night, got a light, ciggie paper?

This magical abyss you somehow think you're fine
But you are fooling no one, 'bout to pop and lose your mind
It all goes straight through ya
Nothing left to lose
This confidence it'll fool ya
When you're drowning in the booze

You got a screw loose (Screw loose)
You never see the light of day
You got a screw loose (Screw loose)
Will you ever sit right again?
Is it always so hard trying not to fall apart?
And you're worried walking down the street
You always come last, when you're going too fast
Now, it's time I turn the other cheek
You got a screw loose

I've seen you dressed up at a party
But you hardly kick start it
And your friends are aiming at you instead of hitting pinatas
Your life's a violet crumble
You're flakey and you're dark
And even your own mother doesn't know who you are

You're backed into a corner with no date and no friends
You're the bottom of a beer that no one likes in the end
It all goes straight through ya, like a ghost drinking juice
You're competent, but babe, I'm stepping out of these boots

You got a screw loose (Screw loose)
You never see the light of day
You got a screw loose (Screw loose)
Will you ever sit right again?
Is it always so hard trying not to fall apart?
And you're worried walking down the street
You always come last, when you're going too fast
Now, it's time I turn the other cheek
You got a screw loose

Gotta cut the screws
Gotta cut the screws loose
Hey
Gotta cut the screws
Gotta cut the screws loose
Hey
Nothing left to lose
Nothing left to lose

Hey
Gotta cut the screws
Gotta cut the screws loose
Hey
Nothing left to lose
Nothing left to lose

You got a screw loose (Screw loose)
You never see the light of day
You got a screw loose (Screw loose)
Will you ever sit right again?
Is it always so hard trying not to fall apart?
And you're worried walking down the street
You always come last, when you're going too fast
Now, it's time I turn the other cheek
You got a screw loose

You got a screw loose
You got a screw loose
