Lean on Me

My world, your world Angry, happy Downward spiral System breakdown Nauseous, panic Bring on Havoc So reach out with patience And hold me while I hold you

I can't solve your problems today, oh no But you can lean on me now

Distance grows fonder Sincere I wonder Lover or ally Cleanse me, don't try Torture, cave in Bruise me 'til I say when Cuz I've got no patience So hold me while I hold you

I can't solve your problems today, oh no But you can lean on me now (2x)

I don't ever wanna see you cry no more, no more (4x) No more, no more, no more, no more

I can't solve your problems today, oh no But you can lean on me now (2x)
