## Oh No

Public day Not a breeze Not a problem They could have seen Green light leaving ground One more time To the line Three inside For what who really cares Our screams won't make a sound Oh no Uh oh Send somebody for us Oh no Uh oh no Oh no Uh oh Send somebody for us Oh no Its too late Red light on Blinking wrong Signal gone Cut off from everything Eyes wide vertical Black out mass Welcomes us Not a thing it seems could help us now All mass broken down Oh no Uh oh Send somebody for us Oh no Uh oh no Oh no Uh oh Send somebody for us Oh no Its too late Why can't they show us the way Show us Show us now We're drifting We're listing All systems going nowhere Until the To where the So this is how it will end Oh mother Oh father We're closer now then we've ever been Why can't we see the light
