

# Christmas Through A Child's Eyes

Linda Eder

Every year I'd wait for the season  
Only Christmas time can bring  
I thought I understood the reason  
For all the parties and caroling  
Every year I'd search for the meaning  
Every time I'd dress the tree  
Each new ornament and garland  
Each decoration was all I'd see  
And all that Christmas meant to me Then someone told me Christm  
as is for children  
And I left that behind too long ago  
But now I see Christmas through a child's eyes  
My new son's eyes  
Now every time we ring in the season  
And play a Christmas melody  
I know that the moment he hears it  
He'll bring Christmas back to me
