

Space

Lindsay Ell

I'm runnin' out of air up here
So far out of your atmosphere
Remember when you were right here, right here
And we burned like the sun
Baby, we were so caught up
We couldn't get close enough
Risin' in the sky, baby you and I, so alive
Do you ever think about us?

Are you out there with the stars all alone?
Is there someone in your arms?
I don't know
You said that you needed
I said that I'd wait
But, baby I hate this space

Floatin' in the inbetween
Where we are and what we used to be
Tryin' not to call you even though I want to
Even though it's killin' me

Are you out there with the stars all alone?
Is there someone in your arms?
I don't know
You said that you needed
I said that I'd wait
But, baby I hate this space
Oh...mmm

Come back to me
Pull me down like gravity
Ooh, baby, please
Tell me that you hate this
Tell me you can't take this space
Mmm, woah...

Are you out there with the stars all alone?
Is there someone in your arms?
I don't know
You said that you needed
I said that I'd wait
But, baby I hate this space

Oh, screamin' at the moon
How the hell am I supposed to be without you?
Ooh...
The world just keeps spinnin'
And you just keep livin' your life without me
And, baby I hate this space
I hate this space
