

The Devil Loves L.A.

Lisa Germano

The devil loves los angeles
He has to live where his angel lives
And the angel says: it beats the devil out of me
Why, i love to live where there danger be

Devil spends his days by the beach
The tide toys with his toes, just out of reach
In hollywood, the angel gives her speech
Thinks the party has involved you in the contract breach

The devil loves los angeles
Needs to live where his angel is
And she says: it beats the devil out of me
Why, i love to live where there danger be

It beats the devil out of me
