

I Remember Love

Lisa Mitchell

Love is fleeting
Take my hand
Hurt in [?]
Nothing matters
Don't forget me

Free your [?] heart
Let it all out
See your red eyes
You don't write back
Don't forget me

Bodies like cases
I remember love
Hold us, hold us up like mice
I remember love, I remember love
I remember, I remember love
I remember, I remember love
I remember, I remember love

Riding Friday
All the way home
Flying highway
See them take flight
Don't forget me
Don't forget me

Our bodies like cases
Oh, I remember love
Hold us, hold us up like mice
I remember love, I remember love
I remember, I remember love
I remember, I remember love
I remember, I remember love

I remember, I remember love
