

# Love Without a Name

Lisa Stansfield

What is this?  
How did I get here?  
Pretending I don't know your name again  
In another world I'd be your girl  
Out in this one I'm crying  
I'd die without you

So I can't let you go  
Some things you can't explain  
I always say it's the last time but  
Here we go again  
You kiss me and I surrender  
I can never resist the pain  
It's just so  
Baby you know  
It's just love without a name

It haunts me  
Oh, so bitter sweet  
Never knowing when we'll we meet again  
In another world I would say goodbye  
but in this one I'm flying  
And I'd die without you

So I can't let you go  
Some things you can't explain  
I always say it's the last time but  
Here we go again  
You kiss me and I surrender  
I can never resist the pain  
It's just so  
Baby you know  
It's just love without a name

No, no, no, no  
But when we're dancing slowly  
When you hold me  
I know

So I can't let you go  
Some things you can't explain  
I always say it's the last time but  
Here we go again  
You kiss me and I surrender  
I can never resist the pain  
It's just so  
Baby you know  
It's just love without a name

No, I can't let you go  
It's love without a name

Cos I love you baby

No, I can't let you go  
It's love without a name
