

## A Song to Slit Your Wrists By

Lita Ford

Distorsion out of face  
Washes over my sour face  
My life is thru, I guess I owe it all to you  
Check me out.  
You left me wondering what I'm about  
You sucked dry and you spit me out,  
There still one thing I can do  
So I wrote this tune just for you!  
A Song To Slit Your Wrists By,  
A song my health, a twist  
A Song To Slit Your Wrists By  
A song my goodbye kiss!  
Yeah!

Black tears, white towel  
My face check out the cloud  
The dark faith I'm thru

I just keep writing this tune for you.  
A Song To Slit Your Wrists By,  
A song my health, a twist  
A Song To Slit Your Wrists By  
A song my goodbye kiss!  
Yeah!

Distorsion out of face  
Washes over my sour face  
My life is thru, I guess I owe it all to you  
A Song To Slit Your Wrists By,  
A song my health, a twist  
A Song To Slit Your Wrists By  
A song my goodbye kiss!  
Yeah! It's so good!

A song my goodbye kiss!  
Oh, kiss this!
