Hammerhead

He sees himself as a warrior In a world that doesn't understand A demon light fills the eyes Of this mechanical man

He's a living, breathing nightmare He's twisted and he's mean In his head, the walking dead Are his secret war machine

Oh, oh, hammerhead

He was just a lonely boy Before the demons took control His sanity, humanity Lost somewhere long ago

Now the poisons in his memory Are clogging up his veins And the loneliness like a devil's kiss Has gone straight to his brain

Oh, oh, hammerhead (Hammerhead) Oh, oh, hammerhead

Now he's lost within his madness And more and more each day The metal man turns his hand To the price the world must pay

Hammerhead Oh, oh, hammerhead Oh, oh, hammerhead Lita Ford
