

# Tambourine Dream

Lita Ford

Sail away, my crystal ship  
'Cross the diamond sea  
Hear the sweet song of the morning star  
On a distant tambourine

I could hear a heart of thunder  
Callin' me from across the lonely sea tonight  
The spell that I'm under  
Has brought you to my door, the love I hunger for

Won't you be my tambourine dream?  
We can last forever in a lover's fantasy  
I want you to be my tambourine dream  
Wrap your arms around me, baby, come along with me  
I'll sing you a sweet melody, yeah

Stranger come, one sleepless night  
Built a castle 'round my heart  
Music man from another land  
Far beyond the stars

When the morning came a knockin'  
Kissed my lips and slipped away into the mist  
Heard a gypsy song callin'  
Just close your eyes tonight, I'll be there by your side

Won't you be my tambourine dream?  
We can last forever in a lover's fantasy  
I want you to be my tambourine dream  
Wrap your arms around me, baby, come along with me  
I'll sing you a sweet melody

Won't you be my tambourine dream?  
We can last forever in a lover's fantasy  
I want you to be my tambourine dream  
Wrap your arms around me, baby, come along with me  
Tambourine dream

I want you to be my tambourine dream  
We can last forever in a lover's fantasy  
I want you to be my tambourine dream  
Wrap your arms around me, baby, come along  
Come along with me

Tambourine dream  
Tambourine dream  
Tambourine dream  
Tambourine dream  
Tambourine dream, yeah

Tambourine dream  
I'm dreamin' tonight  
Tambourine dream  
Dreamin' tonight, yeah  
Tambourine dream
