

# All Over Again

Little Big Town

I can see the moonlight shining off the tracks  
Down beside the river, and Lord, it takes me back  
To that starry night when I made you mine  
With a little midnight kiss

I can see us dreaming, wondering where we'd live  
Just two wishful thinkers, just a couple kids  
We were young and scared, but we didn't care  
There in our innocence

Baby, why don't we play that old song from way back when  
And baby, why don't we go to that place we met and then  
We can fall in love  
We can fall in love  
All over again

We can throw the top back, head on out of town  
Drive along the coast til the sun is going down  
Dancing in the sand, can't you hear the band  
Let's get lost in time

Baby, why don't we play that old song from way back when  
And baby, why don't we go to that place we met and then  
We can fall in love  
We can fall in love  
All over again

We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love

Baby, why don't we play that old song from way back when  
And baby, why don't we go to that place we met and then  
We can fall in love  
We can fall in love  
We can fall in love  
All over again

We can fall in love  
We can fall in love  
We can fall in love  
We can fall in love

Baby, why don't we play that old song from way back when  
We can fall in love  
We can fall in love
