

Bluebird

Little Big Town

Bluebird singing
Right outside my window in a tree
Just for me
Bluebird singing
Something in that midnight melody
Makes me believe

Nothing's gonna take my love away
Keep it in your heart for a rainy day
Close your eyes let it find its way to you
And if the highway gets too dark
Call my name let it catch a spark
I'll be there for you
Call me honey
I'll come running

Bluebird flying
Beneath the clouds she's got somewhere to be
She's gonna be free
You've been crying
Set your sorrows on that bluebird's wings
And when she sings

Nothing's gonna take my love away

Keep it in your heart for a rainy day
Close your eyes let it find its way to you
And if the highway gets too dark
Call my name let it catch a spark
I'll be there for you
Call me honey
I'll come running

Nothing's gonna take my love away
Keep it in your heart for a rainy day
Close your eyes let it find its way to you
And if the highway gets too dark
Call my name let it catch a spark
I'll be there for you
Call me honey
I'll come running
I'll come running

Right outside my window in a tree
Just for me
