

Can't Go Back

Little Big Town

Some things you can't go back to
Some things need left alone
Don't mess with the memories of a life passed on
All the time I made reservations, at the heart of my mistakes
Oh, some things you can't go back to
Cause you left them slip away

I don't wanna be a witness
To a path that's overgrown
I don't wanna see this house not be a home
Cause has taken control of, what we couldn't see
No I don't wanna be a witness
To the end of you and me

How am I gonna make each moment,
Better than the last
How am I gonna make it better
If I can't go back

All the time I made reservations, at the heart of my mistakes
Oh, some things you can't go back to
Cause you left them slip away
Oh, some things you can't go back to.
