

Stay

Little Big Town

How can I bear to wake up and you're not there
What will I do when I turn and reach for you
I'll lay my tears on the windowsill
I'll only cry till I get over you
But how long will that take me
Won't you save me... and

Stay
Just a little bit longer
Till I'm a little bit stronger to take all this
Stay
Just a little more time
Till I can find a way
Please stay

Will I ever smile again
When losing love takes my best friend
To wonder where, wonder how
Wonder what you're doing
One more night just before you break me
Hold me safely

Stay
Just a little bit longer
Till I'm a little bit stronger to take all this
Stay
Just a little more time
Till I can find a way
Please stay

So I'll be a big girl, and just close my eyes
As you walk away don't say goodbye
God save me
Please won't you

Stay
Just a little bit longer
Till I'm a little bit stronger to take all this
Stay
Just a little more time
Till I can find a way
Please stay
