Thought you'd change the weather

Start a little storm

Make a little rain

But I'm gonna do one better hide the sun until you pray

I'm a tornado looking for a soul to take

You're gonna see me coming by the selfish things that you did I'm gonna leave you guessin' how this funnel is gonna hit I'm a tornado looking for a man to break

Yeah, I'm gonna lift this house, spin it all around Toss it in the air and put it in the ground Make sure you're never found

Thought you'd take a swing

Try another girl, try another night,

But it's the pain that brings my force of nature back to life

I'm a tornado more disturbed than an F5

Hey, I'm gonna lift this house, spin it all around Toss it in the air and put it in the ground I'm gonna lift this house, spin it all around Toss it in the air and put it in the ground Make sure you're never found, oh, yeah

## 0000000000 MMMMMMMMMM

I'm gonna lift this house, spin it all around Toss it in the air and put it in the ground I'm gonna lift this house, spin it all around Toss it in the air and put it in the ground Make sure you're never found

The winds are getting stronger
And the sky is falling through
And you ain't got much longer
'Til the rage rips off the roof
I'm a tornado... and I'm coming after you...

Oooo...
Hmm...
