

After Dark

Little Birdy

Is it enough for me baby to hide?
Is it enough for me baby to hold you down?
I got a feeling that you want me tonight

And I am certain that I kissed you goodnight,
with the tall tall buildings, and dim streetlight
I got a feeling that I had you tonight
so come on out, baby come on out.

So I leave you lying on the floor,
with this other girl, I think you know,
don't you, want somebody round here,
who can help you out,
who can help you out

Cause I am loving every minute with you,
I'm loving every minute with you
I don't want anybody else around,
I don't want anybody...

And so I follow through this vacant spot you call this
pleasure, oh well
I'm gonna wake up and smell this mess you call this...
I'm tempted by this,
throw myself inside the water,
I throw myself inside the water,
I throw myself inside the water,
Oh... Oh...

Coz I am loving every minute with you
I'm loving every minute with you,
I don't want anybody else around,
I don't want anybody..

You keep me OK
You keep me OK
You keep me OK
I'm falling

You keep me OK
You keep me OK
You keep me OK
I'm falling

Coz I know you now,
Coz I know you now,

Coz I know you now
Coz I know you now,

You and all those others stand,
next in line
next in line
Oh I want you home and complete
After dark,
After dark.

You and all those others stand,
next in line
next in line
Oh I want you home and complete
After dark,
After dark.

Coz I am loving every minute with you
I'm Loving every minute with you,
I don't want anybody else around,
I don't want anybody..
