

# Strobe Light

Little Dragon

Lost, where you been?  
Gold dripped on your skin  
Dizzy, spinning  
Gold dripped on your skin

What's it like from those hands?  
Angels stay in  
And just a taste, tasting  
The soul reborn again, gain

Strobe light  
Ultraviolet blue  
Eyes are deep  
Ultraviolet you

Staring, she's staring  
Through a crowded room  
Coming closer, you're sweating  
[?] has a piece of you

You're smiling, teeth glowing  
The angels stay in  
Have a taste, a taste of  
Soul reborn again, gain

Glowing in the park  
Pearly whites in the dark  
Throw a witch into a fire  
'Cause the fire, we back  
Glowing in the dark  
Pearly whites in the park  
Throw a witch into a fire  
'Cause the fire, we burn

Strobe light  
Ultraviolet blue  
Eyes are deep  
Ultraviolet you

Wanna send a little love  
And let this play the beat  
In between space and time  
It's invisibility

Strobe light  
Ultraviolet blue  
Dancing eyes are deep  
Ultraviolet you  
(Ultraviolet blue)  
Dancing eyes are deep
